

VISUALISATION ASSIGNMENT

BY,
MADHUMITHA

The Indian Premier League is a professional men's Twenty20 cricket league, contested by ten teams based out of ten Indian cities. The league was founded by the Board of Control for Cricket in India in 2007.

OBJECTIVE

To create an interactive dashboard that highlights some of the important statistics of the IPL over the period of 2008-2017.

PROBLEM STATEMENT

As a data analyst at **IFP**, a nationally recognized news agency, which is based out of New Delhi, and provides news reports and feeds to magazines, newspapers and TV broadcasters all over the country have to build a Tableau dashboard of IPL statistics over the years since its inception in order to create an infographic for a newsletter that their team is working on. For this newsletter, in some cases, they will use the visual representations as you have created in Tableau directly for their infographic, and in a few other cases, they will use important statistics after trying out the different filters and customizations that you have provided for interactivity.

IPL Teams (2008-2017)

Locations and Number of matches played

Map based on Longitude (generated) and Latitude (generated). The marks are labeled by City. Details are shown for City and Venue. The view is filtered on City, which keeps 31 of 31 members.

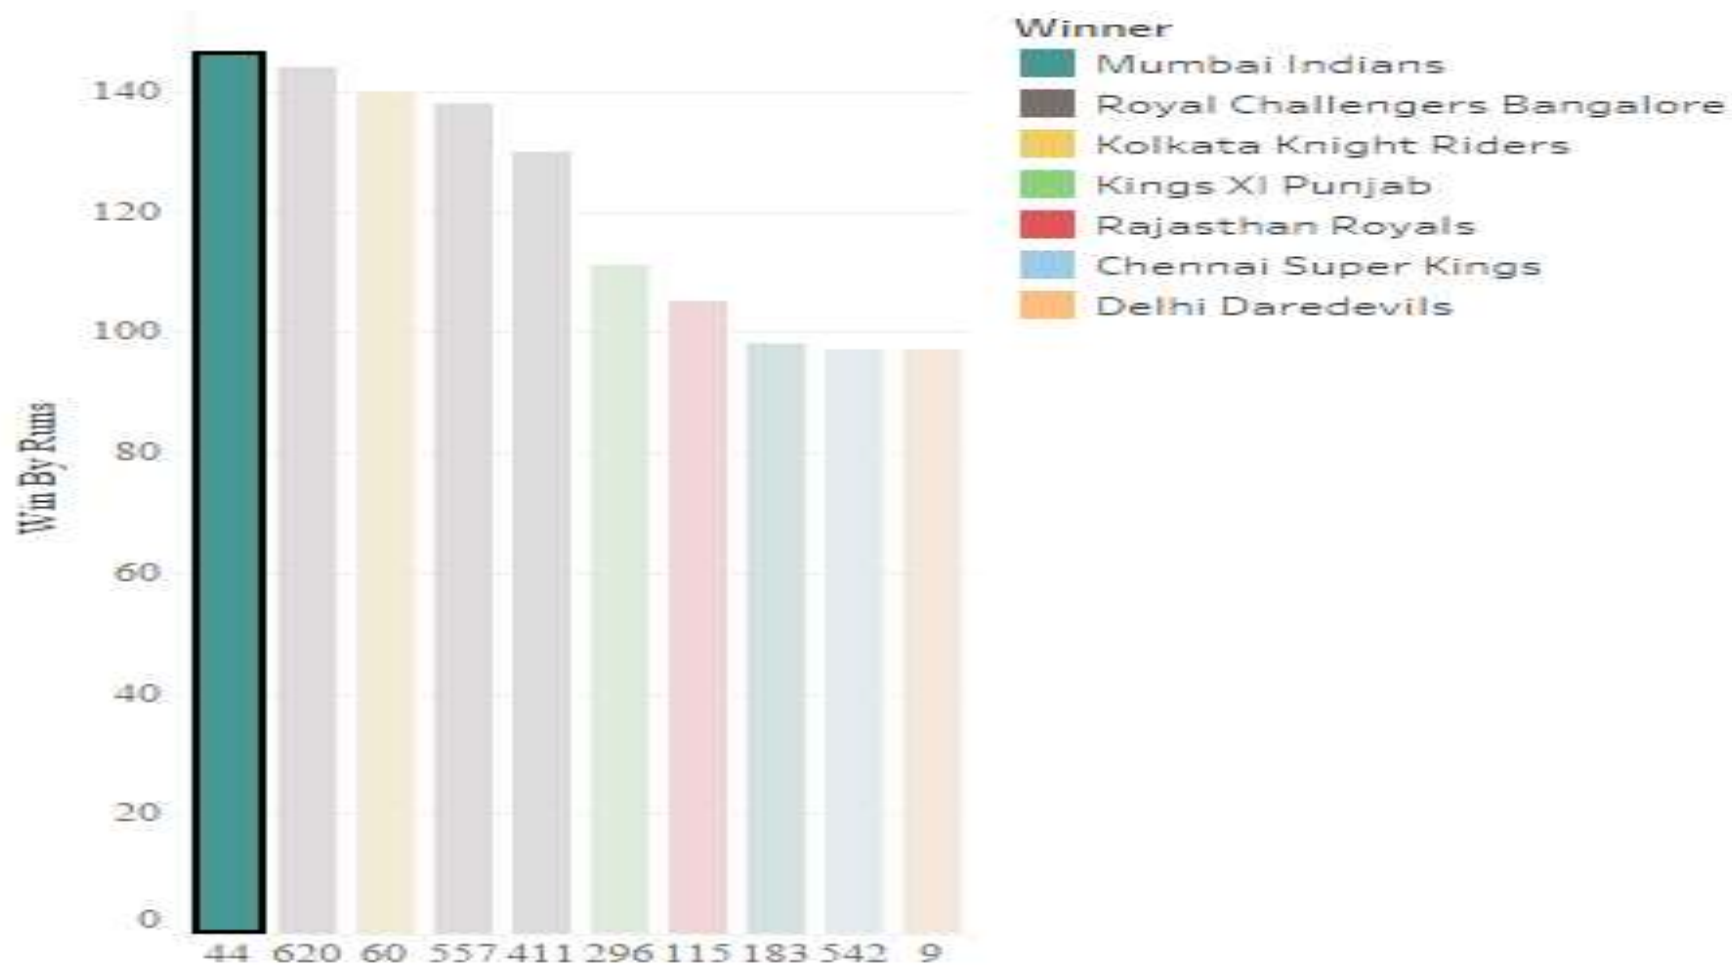

MATCH STATISTICS

Toss Outcome vs Match Outcome(for each Ground/Venue)

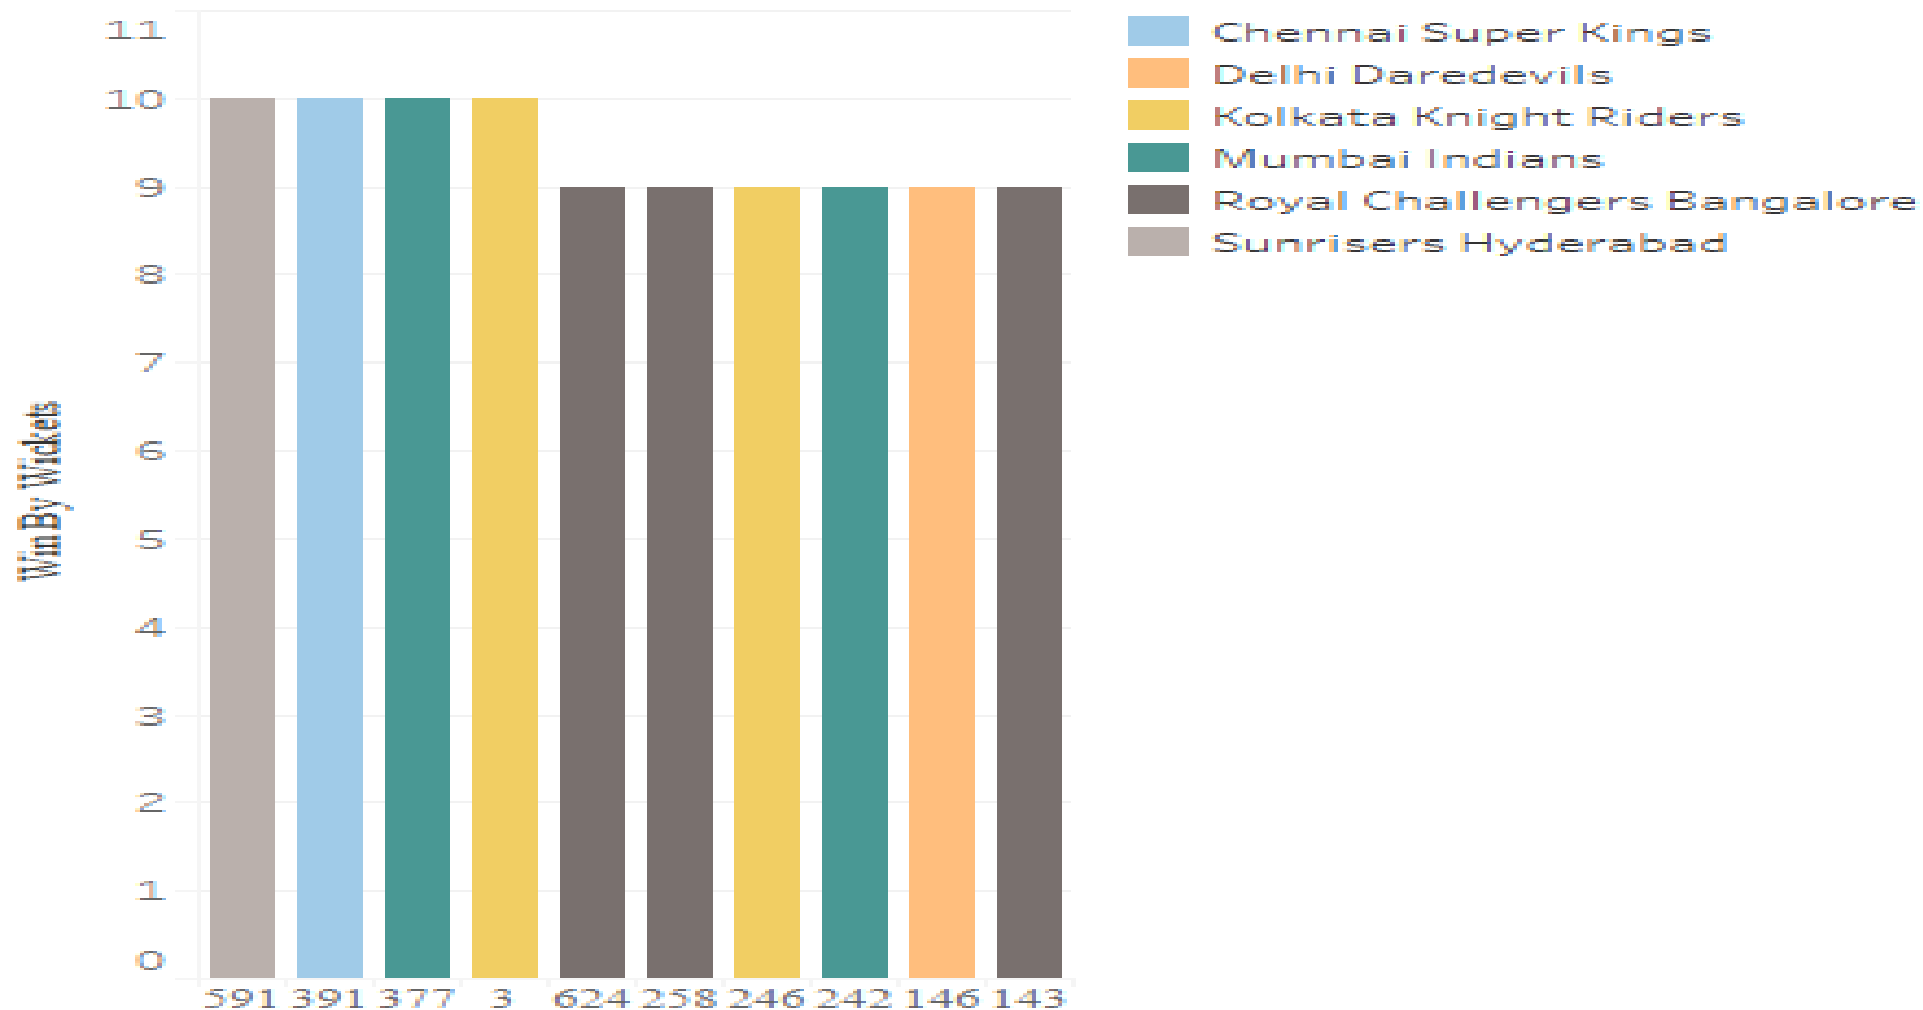

Distinct count of Id for each Toss Decision broken down by Toss & Match decision. Shape shows details about Toss Decision. The data is filtered on Venue, which keeps 35 of 35 members.

Biggest wins (by runs)

Win By Runs as an attribute for each Id.
Color shows details about Winner. Details
are shown for Season. The view is filtered on
Winner and Id. The Winner filter keeps 13 of
14 members. The Id filter keeps 10 of 2,868
members.

Biggest wins (by wickets)

Win By Wickets as an attribute for each Id. Color shows details about Winner. The view is filtered on Winner and Id. The Winner filter keeps 13 of 14 members. The Id filter keeps 10 of 2,868 members.

Highest totals (across all the seasons)

Sum of Total Runs for each Batting Team broken down by Match Id. Color shows details about Batting Team. The data is filtered on Match_innings, which has multiple members selected.

PLAYER STATISTICS

Orange cap contenders

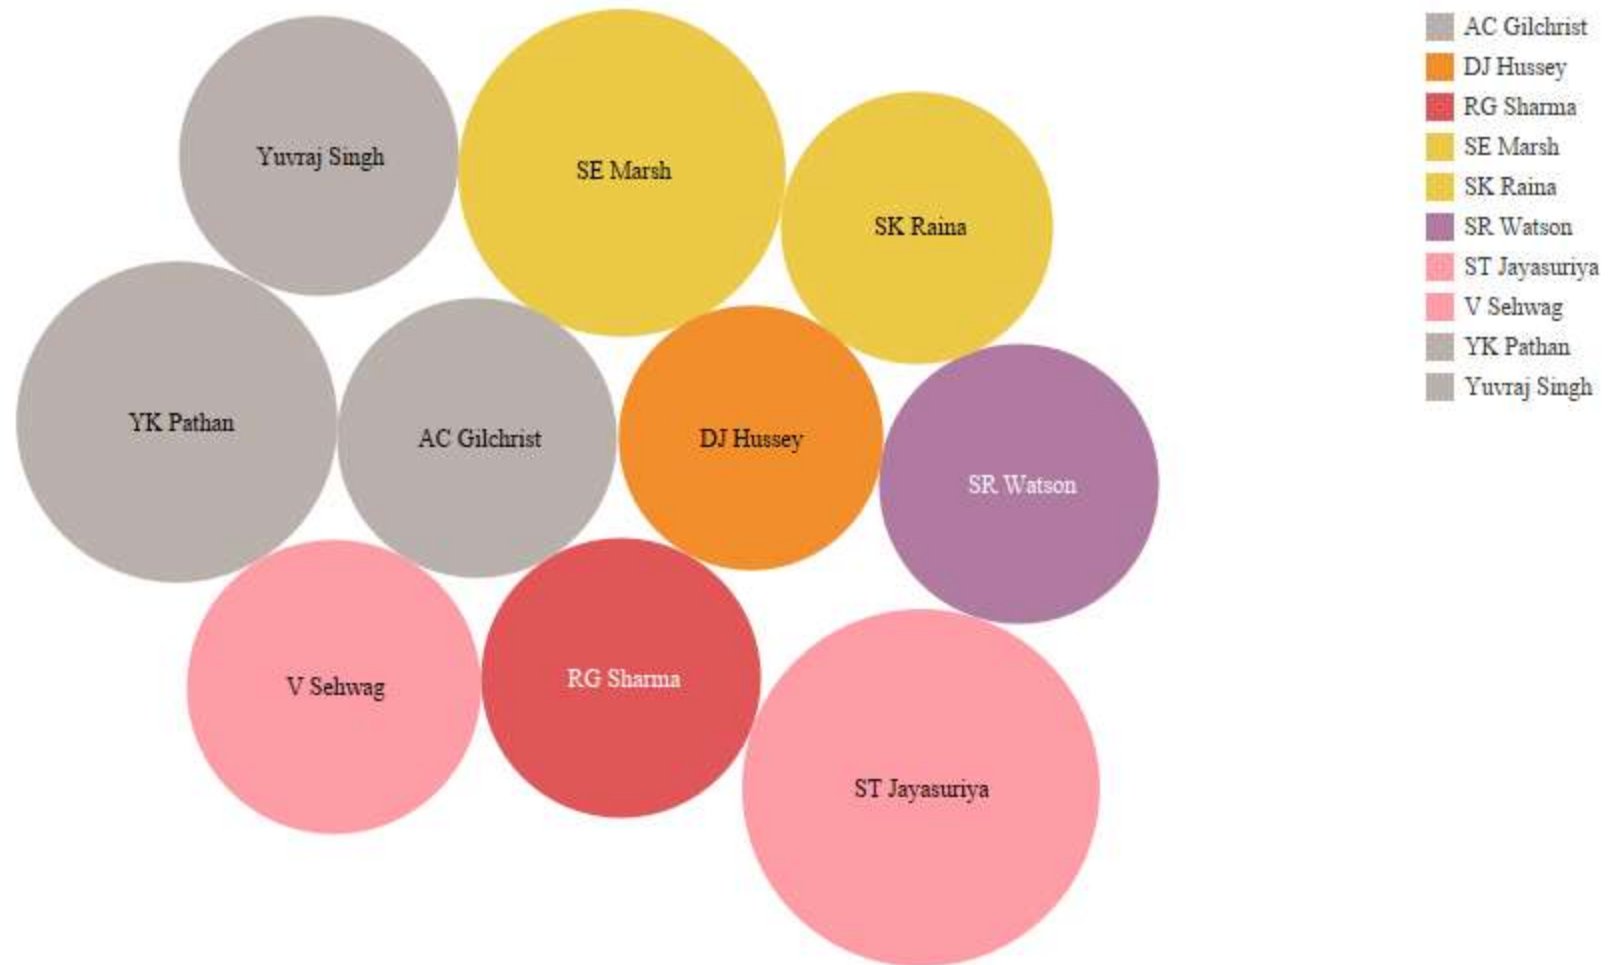

Batsman. Color shows sum of Batsman Runs. Size shows sum of Batsman Runs. The marks are labeled by Batsman. The data is filtered on Date Year and Rank. The Date Year filter keeps 2008. The Rank filter ranges from 1 to 10. The view is filtered on Batsman, which keeps 461 of 461 members.

Purple Cap Contenders

Bowler. Color shows count of Dismissal Kind. Size shows count of Dismissal Kind. The marks are labeled by Bowler. The data is filtered on Season and Rank bowlers. The Season filter keeps 2008. The Rank bowlers filter ranges from 1 to 10. The view is filtered on Bowler, which keeps 356 of 356 members.

Batsmen who have hit the most number of Sixes

Batsman. Color shows details about Batsman. Size shows sum of Six's. The marks are labeled by Batsman. The data is filtered on Season and Rank 6s. The Season filter keeps 2008. The Rank 6s filter ranges from 1 to 10. The view is filtered on Batsman, which keeps 461 of 461 members.

Batsmen who have hit the most number of fours

Batsman. Color shows details about Batsman. Size shows sum of Four's. The marks are labeled by Batsman. The data is filtered on Season and Rank 4s. The Season filter keeps 2008. The Rank 4s filter ranges from 1 to 10.

Batsmen who have hit the most number of Boundaries

Total 4's and 6's for each Batsman. The marks are labeled by total 4's and 6's. The data is filtered on Season and Rank boundaries. The Season filter keeps 2008. The Rank boundaries filter ranges from 1 to 10. The view is filtered on Batsman, which keeps 461 of 461 members.

TEAM STATISTICS

Season-wise team performance (wins vs losses)

Distinct count of Id and distinct count of Loser for each Winner. Color shows details about distinct count of Id and distinct count of Loser. The data is filtered on Season, which keeps 2008. The view is filtered on Winner, which keeps 13 of 14 members.

Win %age (home vs away)

Distinct count of Id for each Winner. Color shows details about Home team win. The marks are labeled by % of Total Distinct count of Id. The data is filtered on home_team_updated and Season. The home_team_updated filter keeps 9 members. The Season filter keeps 2008. The view is filtered on Home team win and Winner. The Home team win filter keeps multiple members. The Winner filter keeps 8 of 14 members.

THANK YOU !!!
